| SODS | | |
| 1571 | Grass Sod 10 sq.ft (2'X5') | \$1.00/sq. ft |
| 2969 | Hayscented Fern Sod | \$8.00/sq. ft. |

HOW TO CALCULATE HOW MUCH YOU NEED:

1. Figure out the square footage of the area: multiply length by the width
2. Determine the depth you want: 2"=.17 3"=.25 4"=.34 5"=.42 6"=.5
7"=.59 8"=.67 9"=.75 10"=.84 11"=.92 12"=1
3. Multiply the square footage by the inch factor in #2 (above)
4. Divide that number by 27; The result is the number of cubic yards you need
